

Hinkley Point SSG Chairman's Report.

I attended a Magnox meeting in London on the 25th and 26th of July. This was a Chairs meeting and received an update on the Magnox work program and company issues. The Chairs also had their meeting and I was pleased to hand over to Cllr Aled Jones the National Chairmanship of the group. I was persuaded to remain as deputy Chairman for the next year. Just before our October SSG I will be attending a RWM (Radioactive Waste Management) meeting in Manchester on the 13th and 14th of October.

August Site Visits. I sincerely hope you all availed yourself s of the opportunity to visit both sites. I was available for the first one on the 4th but could not accompany the group onto B site. Ron, Gemma and Myself had a meeting to discuss the forthcoming planning application. Mervyn was in charge for the tour on the 25th Unfortunately I was in Hospital having a hearing device fitted.

Aled and I are continuing to have our quarterly meetings with Magnox at Berkeley, we discussed the agenda for the forthcoming chairs meeting in London on the 22nd and 23rd of November. Our next quarterly meeting is on the 1st of December at Oldbury.

Mervyn and I have a meeting with Ron regarding the ILW planning application and a meeting with the Waste Sub-Group is planned prior to the SSG. Mervyn will give a full report at the SSG.

Finally can I please make my usual plea to you all; you are members of this SSG and the representatives of your organisations. It is your job to go back and report, accurately, what has been said at these meetings and the informations gleaned at site visits. If you wish me or Mervyn to come along to your group, Council or meeting then we will always be happy to do so.

Mike
