

Magnox

Sizewell A report to SSG
Allen Neiling – Closure Director
July 2018

Safety and compliance

- No injuries
 - July marks 1 year without a reportable injury
- No environmental events
- Suspected fuel fragments.
 - Total of 2 small fragments with no more expected

Plant and Structures Programme update

- The Plant and Structures Programme is initiating hazard removal and demolition of the National Grid Substation building.
 - Hazard remove commences August 2018
 - Demolition expected to start January 2019
 - Project complete by the end of March 2019

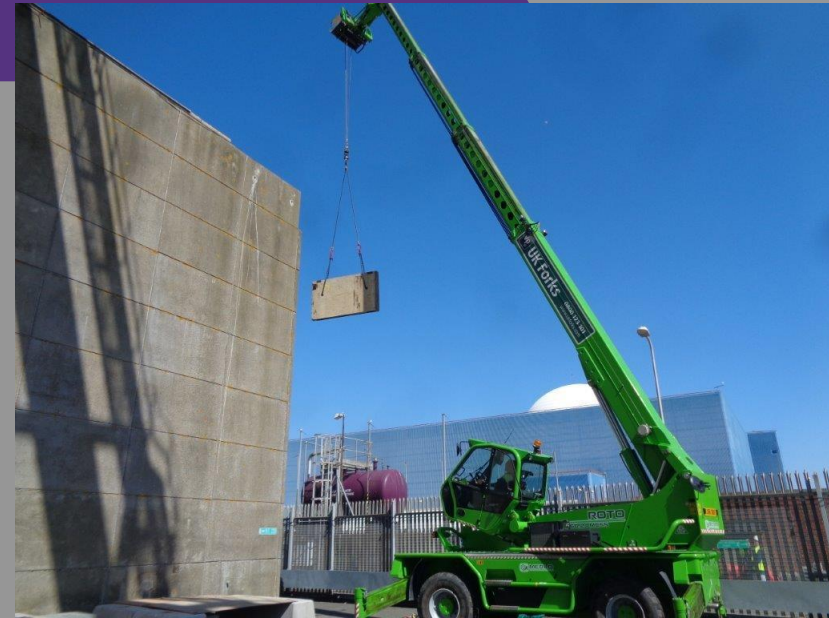

Ponds Programme update

- Diving has completed 7 weeks ahead of schedule
- Size reduced approximately 100 tonnes of redundant handling equipment
- Sort and segregate Fuel Element Debris (FED), Miscellaneous Activated Components (MAC) and Miscellaneous Contaminate Items (MCI)
- De-sludge of the pond floor
- What's Next: Waste removals and packaging

Waste Projects update

- The Waste Programme has awarded a contract to build a retrieval system for the FED vaults
 - Design commencing in August
 - Construction next summer
- Preparation for the retrieval system are ongoing with the replacement of the exterior cladding on the vaults

Asset Care Projects

- The management of asbestos continues to be a high priority for the site and a rolling programme of encapsulation and removal work is in place to ensure the hazard is managed
- Cladding and roof repairs continue on the reactor building
- Security fence upgrades continue
